Program Information and Schedule

- Completion of SPC's Radiography A.S. Degree prepares you for the entry-level certification exam offered by the American Registry of Radiologic Technologists (ARRT) to become a Registered Technologist in Radiography.
- One cohort is available each year: Spring
- Completion of the program allows a student to apply to SPC's B.A.S. Health Services Administration.
- Clinical facilities may prohibit students who do not have an assigned social security number from participating in clinical experiences which are a mandatory component of the curriculum.
  If other placement options are not available, the student would need to withdraw from that semester and would not be able to progress in the program. These factors must be taken into consideration prior to pursuing admission to the program.
- Click here for a tentative class schedule, subject to change: Tentative Class Schedule

Selection Criteria, Selection Process and Admissions

- **All application requirements must be satisfied by the closing of the application window.**
- Up to 24 students are admitted depending on availability of clinical sites. Typically, 100 students apply.
- The average GPA for acceptance varies for each applicant pool, but typically ranges from 3.7 to 4.0.
- When the number of eligible applicants exceeds program availability, selective criteria are used to determine which applicants are admitted. In the case of a tie, a lottery will be used.
  This criterion is based on a point system using the pre-entry GPA and completion of pre-entry, general education, and support coursework. Students will be considered using a point system based on health program GPA, and the number of general education and support coursework credits completed.
- **31 points** may be awarded based on the number of health program pre-entry, general education and support coursework credits completed.
- **40 points** may be awarded based on the health program GPA earned from pre-entry, general education, and support coursework, excluding Computer/Information Literacy.
- **Pinellas County residents will be given priority for admission.**
  Should there be positions available after exhausting eligible Pinellas County resident applicants, the remaining applications will be considered based on the point system.

If you are admitted, you will need to complete the following pre-enrollment requirements to maintain eligible status.
- Complete the Notice of Intent survey by the date indicated in the admission email.
- Successfully pass a background check and drug screening by the date indicated in the admission email.

- Complete the Health Education Program orientation on the date indicated in the admission email.
- Complete the Health Examination Form and any required immunizations.
  Form and due date provided at orientation.

If you are not admitted, we encourage you to reapply during the next application cycle.

Civic Literacy

Students entering an A.S. Degree program in the 2022-2023 academic school year and thereafter must demonstrate competency through successful completion of one of the following Civic Literacy courses and assessment exam prior to program completion. This requirement cannot be waived by an Associate in Arts or higher degree.

      POS 2041 American National Government   3 credits
      AMH 2020 History of the United States II   3 credits
      AND by achieving a 60% passing score on the Florida Civic Literacy Examination (FCLE)

      The following are alternatives to the Civic Literacy course and Florida Civic Literacy Examination (FCLE).
      AP Government and Politics: United States   Score: 3
      AP United States History   Score: 4
      CLEP: American Government   Score: 50

Accessibility Services

St. Petersburg College is committed to providing quality education and services to all students by ensuring that admission, academic programs, support services, student activities, and campus facilities are accessible to and usable by qualified students with disabilities. Each specific health program has its own technical standards which all students must meet with or without accommodation(s). To help students achieve success, Accessibility Services works with students, faculty, and staff to coordinate the provision of reasonable accommodations. To put your accommodations in place, please contact the Health Education Center Accessibility Services at (727) 341-4141 or visit http//www.spcollege.edu/accessibility
