Saint Petersburg College will offer a new Associate in Science (A.S.) degree program in Data Science. The program was created using existing course in current A.S. programs in computer science and mathematics general education. No new faculty, facilities, or other resources will be required to implement the degree program.

Since the program comes from existing courses, it does not represent a significant departure from existing programs.

Please include the Case ID number above in all submissions or correspondence about this substantive change.
