SCHOLARSHIP APPLICATION

Are you considering returning to school to continue your education hoping that this will lead to a new career, improve your chances for promotion, or qualify for a salary increase?

We are part of a national organization founded in 1881, and a state organization founded in 1929, to empower women and girls. Our Scholarship Program provides support to Charlotte County women who have returned to college, or another educational institution, after an interruption or a change in their educational goals.

It makes no difference if your goal is a career in the health sciences, education, the STEM fields or another objective. We want to provide you with the means to do just that and help remove one of the obstacles in your path. Past scholarship recipients have gone on to complete their degrees in a variety of fields including nursing, teaching, business, journalism, law and physical therapy.
